A FRESH,

NEW LOOK

Every angle of the Honda Amaze was specifically chosen to leave a lasting impression. The aggressive front, imposing shape and sculpted contours all come together to create a bold, solid and fresh design.

Replacing the signature 'solid wing face' of the original model with a brand new front grille is one significant improvement we have made to the exterior design. This creates a more pleasing look for the front end.

Additionally, to create a further exterior differentiation from the Trend, the Comfort now gains 15" diamond-cut alloy wheels and LED front-fog lights. The new Amaze features a revised rear bumper with a modern chrome accent adding a stylish note, whilst incorporating LED tail lights.

EXPERIENCE

A NEW SENSE OF CONFIDENCE

The feeling in the driver's seat of the new Amaze is one of confidence and control. The interior was designed for comfort and a premium cabin feel. Everything is within reach thanks to the aesthetically designed dashboard with a multi-function steering wheel, paddle shift, as well as audio and hands-free connectivity.

The latest Amaze interior was designed to be spacious. The contours on the front seat create a comfortable driving experience. The rear seats have been designed in a more relaxed position and are

accompanied by a cushioned armrest with integrated cupholders to ensure that your passengers will travel in style and comfort.

Both the Comfort and Trend come standard with full-black interior upholstery. The Comfort features a 7" touchscreen infotainment system with Android Auto and Apple CarPlay compatibility, keeping you connected. For added convenience, the infotainment system in the Comfort incorporates a reverse parking camera, with rear park distance control now standard across the range.

SAFETY

IS OUR PRIORITY

The safety of the car, as well as the people inside of it, are always a priority. The refined Amaze has been designed to go the extra mile, ensuring the safety of its passengers.

ANTI-WHIPLASH FRONT HEAD RESTRAINTS

In the event of a collision, anti-whiplash front head restraints and 3-point ELR seatbelts help keep passengers safe and secure

ISOFIX CHILD SEAT ANCHORS

Located in the back seat to ensure child safety seats are secured

AIRBAGS

Dual front SRS airbags

*AUTO-LOCKING DOORS

Peace of mind comes with knowing that all doors will lock once the vehicle begins to move

STANDARD ACE™ BODY STRUCTURE

The 42% high tensile steel body structure dispenses energy across the frame and away from the vehicles occupants

BRAKING

Anti-lock Braking System (ABS)
Electronic Brakeforce Distribution (EBD)
